

Reader Feedback Invitation

DOE O 231.1B, *Environmental, Safety and Health Reporting*, requires an annual site environmental report (ASER) to be prepared and made available to the public by October 1 of each year. The Oak Ridge Reservation (ORR) ASER is prepared to present summary environmental data that characterize environmental performance and compliance and to highlight significant environmental programs on the reservation. While we are required to prepare this report in accordance with the order requirements, we would also like your ideas on how we can make the ORR ASER more useful to you. Please take a moment to let us know if this report meets your needs.

1. How do you use the ORR ASER (check all that apply)?

- To obtain general information about Department of Energy activities in Oak Ridge
 - To obtain current year dose information
 - To obtain compliance information
 - To obtain information about a specific Oak Ridge site
 - Other (please specify)
-

2. Is this report

- too technical?
- about right technically?
- not technical enough?

3. What suggestions do you have about changes that would make this report more readable and useful to you?

To help us identify our audience please provide the following information:

4. Affiliation?

- DOE
 - DOE contractor
 - DOE facility (specify type) _____
 - Other government agency
 - Environmental group
 - Elected official
 - Private individual
 - Other (please specify)
-

5. Background?

- Degree in scientific field
- Degree in nonscientific field and work experience in a scientific field
- Degree in nonscientific field and NO work experience in a scientific field
- No degree, but work experience in a scientific field
- Little or no scientific background
