Appendix A. Errata

Errata in the *Oak Ridge Reservation Annual Site Environmental Report* for 2008 (DOE/ORO/2296).

Cross references to Section 5.8.1 throughout the report were in error. Ignore references to this section.

On page 2-4 of Table 2.1, report section 5.2.1.9 cited for DOE Order 435.1 should be changed to section 5.2.1.3.4.2.

The following map, showing ORNL sediment-sampling locations, was mistakenly omitted from the report. The callouts to Figure 5.36 in Sect. 5.5.8 refer to it. All preceding and subsequent figure callouts in Chapter 5 correctly refer to the figures in it.
