Dear Mr. Japp

TDEC Comment Letter

Addendum 2 to the Phased Construction Completion Report for the Duct Island Area and K-901 Area in Zone 1, East Tennessee Technology Park, Oak Ridge, Tennessee (DOE/OR/01-2261&D2/A2)

The Tennessee Department of Environment and Conservation (TDEC), Division of Remediation, Oak Ridge Office has reviewed the above referenced document pursuant to the Federal Facility Agreement for the Oak Ridge Reservation. TDEC has completed the review process and has generated the following comment:

1. Page 11, Section 4, Table 4:

Table 4 provides a description of the project-related concurrence form which is included in Appendix B. The purpose of the concurrence form was to omit radiological walkover surveys in certain Class 2 areas near the waste storage warehouses due to the fact that the soils are covered by a concrete slab. Were the radiological surveys conducted from February through April 2016 (as stated in the third bullet on page 13) an activity associated with the Reindustrialization Program? If so, please indicate this in the bullet to avoid confusion.
