Dear Mr. Petrie:

The U.S. Environmental Protection Agency has completed review of the *Erratum Pages for the Zone 1 Groundwater Plumes Remedial Investigation Work Plan East Tennessee Technology Park, Oak Ridge, Tennessee* (DOE/OR/01-2903&D2). The pages that are provided do not include those that address the central issue of the EPA letter (dated 08/15/22) – the need for further characterization of the K-720 Fly Ash Pile.

The EPA has agreed with DOE Oak Ridge to move forward with an Addendum to this work plan to conduct the additional characterization. Missing are the erratum pages that reflect this agreement in the above referenced work plan. There must be text added to the *Zone 1 Groundwater Plumes Remedial Investigation Work Plan for the East Tennessee Technology Park* that references the K-720 Fly Ash Pile Addendum work plan.

Please submit the additional erratum pages so that EPA can complete the review.

If you have any questions or concerns regarding this matter or require additional information, then please contact me at (404) 562-8550, or electronically at froede.carl@epa.gov.

Sincerely,

Froede, Carl
